Subject: M.L. Kapp Station
Steam Generating Unit 1
Supplemental Permit 74-A-117-S

Dear Mr. Forslund:

In accordance with provisions specified in subrule 567--22.3(5) of the Iowa Administrative Code, this letter represents a supplement to permit 74-A-117. The permit is revised as noted below.

ADDITIONAL CONDITIONS

The operation of steam generation unit 1 is subject to the restrictions of Conditions 1 and 2, specified below.

Condition 1 Between January 1, 1990, and May 1, 1990, steam generation unit 1 may be operated on coal, only on occasions when steam generation unit 2 is not also in production concurrently.

Condition 2 Beginning May 1, 1990, steam generation unit 1 shall be operated only on natural gas.

All other conditions of the permit remain the same.

Sincerely,

MICHAEL HAYWARD
